EDUCATION

Georgia State University,

August, 2006

Atlanta, GA

Computer Science (Magna Cum Laude)

National Dean's List, Golden Key Honour Society, ACM Member

Certifications: AWS Certified Developer, SCJP, Comptia A+, MCSE (NT4), MCP (2003)

EXPERIENCE

2/2014 – Present

Software Developer

CareLike, LLC

Atlanta, GA

Developed large, multi-portal DNN web portal. Wrote extractors to pull data from websites, PDFs, and flat files. Worked on ASP.NET MVC/Web API sites used to search provider database. Setup BitBucket site and migrated all CareLike's code from TFS saving ~ \$6000/yr. Migrated database and web servers from both RackSpace and Azure to AWS. Migrated images hosted on several stand-alone servers to Cloudinary. Other server projects include: Jira, Confluence, and Jenkins automation server.

2/2014 - 8/2014

Software Developer

Alora Health

Atlanta, GA

Built framework for new ASP.NET MVC application to include Entity Framework, ASP.NET Identity user authentication, cross site authentication, and Log4Net. Designed site to take advantage of responsive design principles using Bootstrap, jQuery, and DevExpress MVC controls to fill in missing server controls in the MVC framework.

12/2009 - 2/2014

Software Developer

Piedmont Hospital

Atlanta, GA

Created .NET web applications for MojoPortal CMS. Maintained QA, DEV and PROD websites. Setup new DotNetNuke portal and migrated existing MojoPortal applications. Created database scripts to migrate users, roles, and custom data to DNN. Fixed bugs and developed portlets for Physician CIT portal using Java, Groovy, and Grails. Created and maintained existing ETL processes for data warehouse and kept physician, patient and clinic data from sources such as EDI 837P 4010 and 5010 files, CSV files, NSF files, and NextGen databases. Server projects I setup for Piedmont include: wiki (Atlassian Confluence and Jira), SVN, SFTP server, and Hudson CI server.

10/2006 – 11/2009

.NET Programmer

Elavon

Atlanta, GA

Created web apps for intranet portal using ASP.NET to generate reports from SQL Server. Wrote custom C# applications to automate XML and report file processing and saved hours of manual data entry. Supported internal compensation system. Maintained and supported Lead Referral site written on DotNetNuke platform with SSRS.

5/2006 – 10/2006

Java Programmer (Contract)

BlueLinux (Georgia Pacific's Building Material Division)

Marietta, GA

Fixed bugs in existing Java Swing applet and added new deck design capabilities through the GUI and passed these new modifications to the C# web service via XML. Migrated deck building Java applet, C# web service, and C++ 3D graphics software from 3rd party hosting company to BlueLinux servers.

12/2004 – 4/2006

Support Technician (Contract/Co-op)

Georgia Pacific

Atlanta, GA

Wrote VB6 apps to automate user database imports. Wrote VB.NET web pages to export database XML files and display user database reports for auditing. Used HTML and CSS to design support group's internal web portal.

** Previous jobs include: Network Engineer, QA Tester, and Helpdesk Technician.

SKILL SETS:

Software Development Experience

Professional Experience: C#, MVC, Java, Groovy, Grails, DotNetNuke, Javascript, various scripting languages, SQL, XML, MVC, GORM(Hibernate using Groovy)

Some Knowledge: Entity Framework, NodeJS, Mongo DB, ElasticSearch, Lucene
